**Re: Support for Chick-fil-A**

Dear Councilman Bonin:

At the March 19, 2015 meeting of LAX Coastal Chamber of Commerce Board of Directors we voted to support the Chick-fil-A restaurant proposed at the former Grinder lot located at 8521 S. Sepulveda Boulevard in Westchester.

We feel that Chick-fil-A's outreach to the community has gone above and beyond to accommodate the requests of not only the business interests, but also the residential community.

The current Grinder facility run down and poses a public safety concern. It has been used by the homeless as an encampment and is an eye soar in our Westchester business district.

As an organization that works to promote the vitality of community, it is important that we bring strong and engaged corporate partners into the area. This facility will bring jobs and enhance the beautification efforts to the area and the gateway to LAX.

The Chamber urges your support this project.

Sincerely,

A handwritten signature in black ink, appearing to read "Christina Davis", enclosed within a circular scribble.

Christina Davis  
President/CEO
